

# The Project Detail

## Factory

### Introduction

"Factory" is a groundbreaking **non-profit initiative** aimed at creating a comprehensive database of factories in Qatar, showcasing their diverse range of products, and facilitating seamless communication between local buyers and sellers. Our platform is designed to promote and strengthen the "Made in Qatar" movement, offering invaluable insights into factory details, HS Code mapping, and raw material utilization. By uniting manufacturers and buyers, "Factory" is set to foster a vibrant and interconnected community of industry players, fostering economic growth and collaboration in Qatar, all with a dedicated commitment to the betterment of the nation.

### Vision

Our vision is to establish 'QDB - Factory' as the go-to platform for industry stakeholders, promoting Qatar's manufacturing excellence and facilitating seamless connections between local manufacturers and the global marketplace.

### Project Objective

The "Factory" initiative is driven by the following key objectives:

-  Database Creation To establish a comprehensive database of all factories in Qatar, promoting transparency and accessibility within the manufacturing sector.
-  "Made in Qatar" Promotion To showcase and celebrate the diverse range of products produced in Qatar, strengthening the "Made in Qatar" movement.
-  HS Code Mapping To provide accurate and easily accessible HS Code information for products, facilitating trade and industry standards compliance.
-  Raw Material Insight To offer insights into the raw materials used in product manufacturing, fostering sustainable practices and resource optimization.
-  Community Building To facilitate communication and collaboration among local buyers and sellers, fostering a robust and interconnected industrial community.
-  Non-Profit Commitment To operate as a non-profit organization dedicated to the betterment of Qatar's manufacturing landscape and economic growth.

### Outcome

"The project aims to boost the '**Made in Qatar**' movement, leading to increased local manufacturing and improved supply chain efficiency. By serving as a comprehensive portal for Qatar Development Bank (QDB), Qatar Chamber of Commerce & Industry, and the General Authority of Customs, it streamlines operations and provides valuable data and connections, supporting well-informed decisions and contributing to Qatar's economic growth.
